

Introduction to EGMF

The European Garden
Machinery industry Federation

About EGMF

The European Garden Machinery industry Federation – EGMF – has been representing the outdoor power equipment industry in Europe since 1977.

EGMF represents manufacturers of garden, landscaping, forestry and turf maintenance equipment.

We share with households, municipalities, landscapers and greenkeepers the responsibility for green area maintenance which improves the quality of our lives.

How are we organised

Governance

The EGMF Board is elected by the General Assembly and is composed of representatives of our corporate members. The Board drives the association's strategy and supervises the management of the association.

Working bodies

The Technical and Marketing Committees are driving EGMF's work on technical, regulatory, and marketing matters. These two committees, and their several task forces, are bringing together the knowledge and experience of more than 150 experts from both national associations and companies.

Team

The daily work of EGMF is coordinated by the Secretariat. Based in Brussels, the team manages the market surveys and engagement with the EU institutions.

EGMF in a nutshell

35

Companies

29 full members and 6 associate members

7

National Associations

EGMF member companies sold over **17.7 million units** in Europe (39 countries) in 2024.

4

Our mission

To serve as a voice for the manufacturers of outdoor power equipment on pan-European matters as well as to be recognised by the key regulatory bodies.

To provide expertise to stakeholders on technical affairs and market trends related to the garden and outdoor power equipment industry.

To provide an effective forum for exchange of information and knowledge about our sector and its equipment and services as well as looking towards new challenges and trends for the sector.

5

Products covered

Ride-on Mowers

Tillers

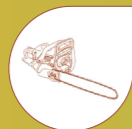

Rotary Mower

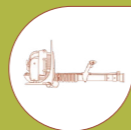

Robotic Lawn Mowers

Trimmers

Chainsaws

Leaf Blowers

Scarifier

Hedge Trimmers

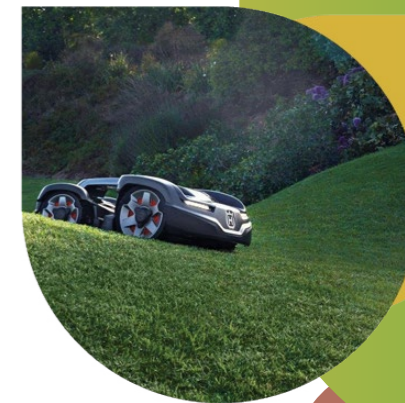

Garden Shredder

Membership benefits

1. Access to early information and the opportunity to shape EGMF's positions on EU regulations that impact garden and outdoor power equipment.
2. Access to a reliable and independent statistics programme for members only.
3. Uniting and speaking as one voice for the garden machinery industry.
4. Actively participating in the main centre of expertise for the garden machinery sector in the EU.
5. Getting involved in technical and regulatory task forces to be ahead of the learning curve.
6. Networking with industry colleagues in Europe and beyond as well as from other European and international trade associations.

Becoming part of EGMF's network means:
